**DETAILED ACTION - ALLOWANCE**

Claims 1-10 are allowed. All claims thus being allowable, prosecution on the merits is closed in this application. A statement of the examiner's reasons for allowance is provided in the paragraph which follows, below.

***Reasons for Allowance***

The instant application is deemed to be directed to a nonobvious improvement over the invention(s) of Cartledge (IEEE Photonic Technology Letters, Vol. 7, No. 9, 1995) and/or Jiang et al. (IEEE Photonic Technology Letters, Vol. 8, No. 10, 1996) disclosed by applicant as being a representative example in the art to which the instant invention pertains. In particular, said improvement provides a single-drive Mach-Zehnder modulator in which chirp can be adjusted over a significantly wider range so that chirp values can be changed to accommodate planned and/or unexpected changes in the operating conditions of the modulator; by using a novel modulator arrangement wherein the interferometric structure (e.g. comprising two "limbs" provided with each said limb comprising waveguides made from electro-optical material) of said modulator is divided into at least two longitudinally spaced sections with separate sets of electrodes, each set consisting of at least three electrodes for applying corresponding electric fields in a push-pull relationship to the corresponding parts of both limbs of said interferometer, and, in at least one of said sections, said waveguides of the two limbs are coupled, as recited, *inter alia*, in each of the instant independent claims (Claim 1, Lines 7-11; Claim 7, Lines 8-14). The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

***Other Remarks/Information***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
